

Inclusion and Wellbeing Service

When I arrive at school, I will need to wash my hands. This is so the germs from the car don't come into school.

wash my hands

I will need to try and stay 2 meters away from people. There is tape around the school to help me know where to stand and wait. If I have any questions, I can ask staff. Staying 2 meters apart helps everyone stay safe from the germs that may come out of our mouths.

stand 2 metres away stand behind the line follow the arrows

Once I have washed my hands, I will go to my class. The classroom will look a bit different as we are not allowed to have soft things in the room. I will have a designated spot with my own chair to sit at. I will be given my own supplies that will remain in school in my tray. I cannot share my supplies with other pupils.

sit on my chair

use pencils my
teacher gives me

I will not be allowed to bring things in from home.

bring pencils from
home

bring objects from
home

I will have to eat my snack and lunch in my classroom at my desk.

eat lunch at my desk

In order to keep others and myself safe, I must sneeze and cough into my elbow. If I need to use a tissue, I must throw it away in the bin. After I have sneezed, coughed or used a tissue, I must wash my hands again. This is so the germs don't stay on my hands. The soap washed the germs off my hands and keeps others safe.

cough into elbow

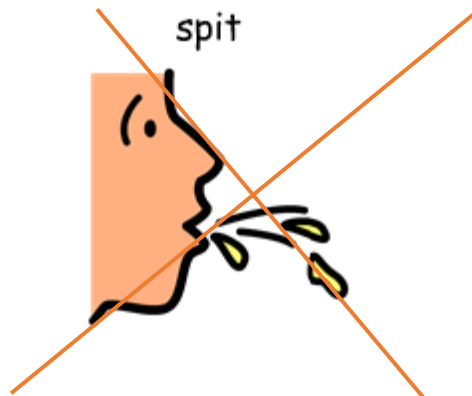

sneeze into tissue and
put in bin

wash my hands

Under no circumstances am I allowed to spit. Spitting is very dangerous and can make people very sick. There is no spitting allowed.

We are all finding this different and feel different things. It is okay to feel happy, sad, angry, frustrated, scared or anything else you are feeling. If you don't understand something, please just ask. We are a team and we will all work together to get through this.
